

Brief characteristics of the journal

The periodical Strojárstvo/Strojirenství (Engineering) is a European journal for specialists who are looking for information from mechanical engineering and from related technical branches. It is oriented towards the specialized professional topics and it offers a field of publishing activities for engineering experts from the practice, from the research institutions as well as from the universities. There are presented in this journal not only industrial and other companies, but also opinions of top managers. Furthermore there are published here actual domestic information and news from the Euro-zone. An important attention is paid in this journal to the automotive industry, logistics, robotics and information technologies. We inform our readers about fairs and exhibitions periodically and about the topical technical news from the whole world. You can find on pages of the journal Strojárstvo/Strojirenství (which is present at the press-market already the 24th year) a lot of other actualities concerning the economic life in the Slovak Republic, Czech Republic and in other EU-countries; it introduces also many various interesting themes, interviews, reports and also analytical articles. This professionally oriented journal is distributed in the Slovak Republic, Czech Republic and in the EU-countries, especially during important European fairs.

MEDIA/ST

Distribution

Slovak Republic: MediaPrint-Kappa Pressegrasso, Inc., PrNS, Inc, Bratislava
Czech Republic: Pressmedia, Ltd., Prague; A.L.L. production Ltd., Prague
Fuel stations, subscribers and professionals from the area of engineering as well as from other industrial branches. The journal is presented regularly on exhibitions or fairs connected with direct selling.

Around 40 ÷ 60 thousands of readers are reading this journal according to the market survey results.

Another approx. 15 ÷ 20 thousands of readers are reading this journal monthly in the electronic version, which is the other form of this journal publishing.

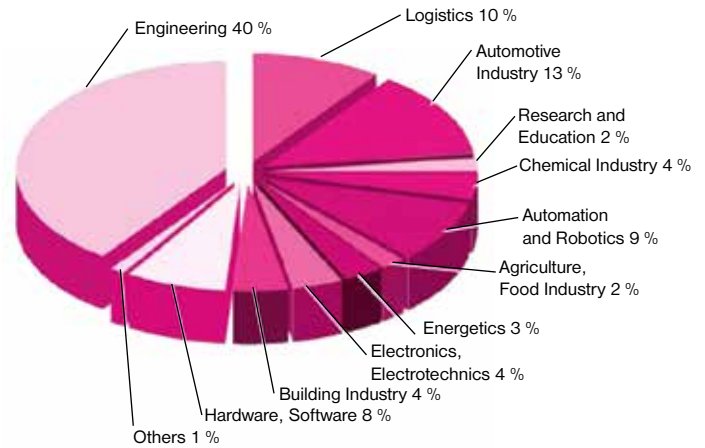

Electronic version

Electronic version of journal Strojárstvo/Strojirenství is available on PC, tablets, mobile phones with DOS Android and on Apple MAC, iPhone, iPad, iPod.

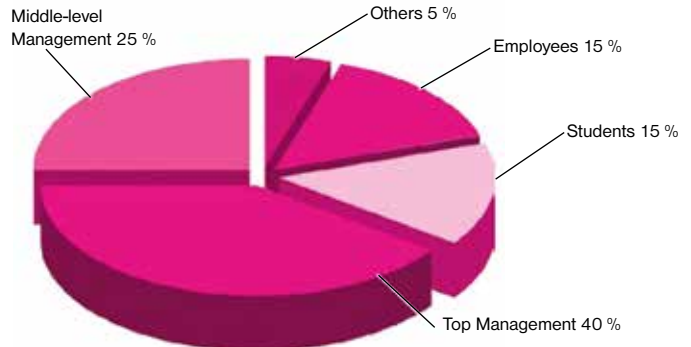

Reader's profile

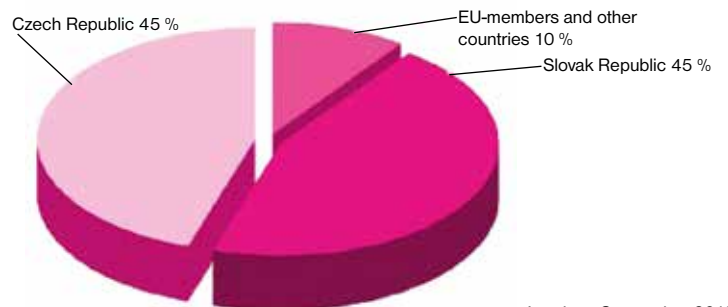

Structure of companies in distributional scheme of the journal Strojárstvo/Strojirenství (Engineering)

Structure of readers

Structure of journal and web-page readers according to countries

Inquiry – September 2019

General Information for 2020

Publisher	Media/ST, Ltd.
Frequency	monthly
Number of pages	80 – 200
Format	215 x 297 mm
Colour scheme	full colour (F4)
Paper	cover 200 g MegaZanders inside pages 90 g Ouverture
Price per issue	3 € (incl. VAT and postage)

Media/ST: Moyzesova 35, 010 01 Žilina, tel.: +421 41 5640 370,
Žilina e-mail: redakcia@mediast.sk, Slovak Republic

Branch office: Jeseniova 2863/50, 130 00 Praha – Žižkov, tel.: +420/774 907 600,
Praha marketing@mediast.eu, Czech Republic

JANUARY / FEBRUARY

MACHINE TOOLS AND FORMING MACHINES

- bearing production: technology, design, testing
- hydraulic and pneumatic drives: production and application
- setting of PF 2020 from engineering companies
- automotive production – news, production and sale of personal motor – cars
- metrology – measuring technology, development and production, service of measuring instruments
- quality of production, standards, testing technology
- metalworking – tools and tackle for metalworking and for other machining
- special machines for metalworking – electroerosion machines, metalworking with waterjet
- control systems for machines and equipment, including software
- refurbished machines, maintenance of machine fleet
- logistics – spedition services, commercial motor vehicles
- design in engineering
- packaging of machines and equipment

Exhibitions

- 7. – 9. 1. Düsseldorf, Germany, viscom
- 14. – 16. 1. Nürnberg, Germany, EUROGUSS
- 30. 1. – 1. 2. Stuttgart, Germany, Wetc

MARCH

TRIBOLOGY AND TRIBOTECHNOLOGY AUTOMATION, ROBOTICS, CONTROL SYSTEMS

- oils, lubricants, gases – sale, using, servis, consuelling
- industrial ecology – recycling
- automotive production – new technologies, innovation in automotive production, electronics
- automotive complements, components and electronics
- logistics – forwarding services, utility vehicles
- building machines and mechanisms
- electronics, electrotechnics – measuring and control devices and systems, electric drives
- production of automotive components for lorries
- invitations to the AMPER

Exhibitions

- 3. – 5. 3. Bydgoszcz, Poland, Innoform
- 3. – 6. 3. Prague, Czech Republic, Aquatherm
- 10. – 12. 3. Düsseldorf, Germany, Energy Storage Europe
- 10. – 13. 3. Düsseldorf, Germany, METAV
- 12. – 15. 3. Istanbul, Turkey, Win EURASIA
- 17. – 20. 3. Brno, Czech Republic, AMPER
- 25. – 28. 3. Bratislava, Slovakia, CONECO – RACIOENERGIA
- 30. 3. – 3. 4. Düsseldorf, Germany, Tube, wire
- 31. 3. – 2. 4. Kielce, Poland, STOM-TOOL
- 31. 3. – 3. 4. Paris, France, Industrie Paris

APRIL

THE FIRST PRE-FAIR ISSUE FOCUSED ON THE MSV (INTERNATIONAL ENGINEERING FAIR) NITRA, WELDING AND MATERIAL CUTTING, LASER

- invitations to stands of exhibitors, information about the Fair
- presentation of news from the MSV Nitra
- chemical and rubber industry: rubber, plastics, unconventional materials (news about materials) – machines and tools
- metallurgy and heavy engineering, foundry industry – presentations of companies, news from a field
- surface treatment – technologies, diagnostics, problems solving in an industrial practise
- military technique and technologies
- automotive industry – actualities, technologies (hybrid, e-mobility)

Exhibitions

- 20. – 24. 4. Hannover, Germany, Hannover Messe
- 20. – 24. 4. Birmingham, Great Britain, MACH
- 21. – 24. 4. Zagreb, Croatia, BIAM
- 21. – 26. 4. Bratislava, Slovakia, Autosalon
- 28. – 30. 4. Stuttgart, Germany, The Battery Show Europe
- 28. – 30. 4. Essen, Germany, Cutting World

MAY

SPECIAL ISSUE FOR THE MSV NITRA

- invitations to exhibition stands, exposed exhibits, presentation of exhibiting companies
- interviews with managers before the MSV
- tools for metal working and machining of unconventional materials – sale, services
- trends in machining – actualities
- automotive production – actualities, technical news, sale of motor cars
- invitations to the FOR INDUSTRY

Exhibitions

- 5. – 7. 5. Nürnberg, Germany, PCIM Europe
- 5. – 8. 5. Budapest, Hungary, MACH-TECH Industry Days
- 7. – 13. 5. Düsseldorf, Germany, interpack
- 12. – 14. 5. Vienna, Austria, SMART Automation Austria
- 12. – 15. 5. Prague, Czech Republic, For Industry
- 12. – 15. 5. Kijev, Ukraine, intertool
- 13. – 15. 5. Bratislava, Slovakia, IDEB
- 18. – 22. 5. Beijing, China, CIMES
- 19. – 22. 5. Kielce, Poland, Plastpol
- 25. – 29. 5. Moscow, Russia, Metalloobrabotka
- 26. – 29. 5. Nitra, Slovakia, MSV
- 26. – 29. 5. Nitra, Slovakia, ELO SYS
- 27. – 28. 5. Essen, Germany, all about automation

JUNE

POST-FAIR ISSUE AFTER THE MSV NITRA SURFACE TREATMENT

- reports, press-service, news from the MSV Nitra and from other exhibitions
- hand tools: hand grinding, locksmith tools
- aircraft industry
- automation and robotics, control systems, software
- invitations to the Automatica Munich

Exhibitions

- 2. – 5. 6. Poznan, Poland, ITM Industry Europe
- 9. – 11. 6. Moscow, Russia, Tube, Metallurgy, Litmash
- 16. – 18. 6. Ostrava, Czech Republic, Czech Railways
- 16. – 18. 6. Stuttgart, Germany, LASYS
- 16. – 19. 6. Munich, Germany, Automatica
- 23. – 25. 6. Nürnberg, Germany, SENSOR+TEST

JULY / AUGUST

LOGISTICS, ROBOTICS

- packaging technology
- forwarding services
- bearing production, hydraulics, metrology, measuring equipment
- agro-engineering, food-processing engineering,
- chemical industry – products of chemical industry for engineering
- railway engineering – technics, electrotechnics, technology
- automotive components
- information technologies – industrial software

SEPTEMBER

THE FIRST PRE-FAIR ISSUE FOCUSED ON THE MSV BRNO (INTERNATIONAL ENGINEERING FAIR IN BRNO); MACHINE TOOLS AND FORMING MACHINES

- tools and tackle (special) for metalworking – sale, services
- tribology and tribotechnology (oils, lubricants, industrial gases)
- automotive production – products and technologies from plastics
- welding and material cutting – technics and technologies
- maintenance and renovation of machines
- packaging for machines and machinery
- hardware and software for CNC-machines

- invitations to the MSV Brno
- invitations to the AMB Stuttgart

Exhibitions

- 8. – 12. 9. Frankfurt, Germany, Automechanika
- 15. – 19. 9. Stuttgart, Germany, AMB
- 22. – 25. 9. Berlin, Germany, InnoTrans

OCTOBER

SPECIAL ISSUE FOR THE MSV BRNO

- exposed exhibits, presentation of exhibiting companies – news, interviews, actualities
- invitations to the MSV Brno
- forming machines
- invitations to the EuroBLECH

Exhibitions

- 29. 9. – 1. 10. Sosnowiec, Poland, Toolsex
- 29. 9. – 1. 10. Kielce, Poland, Metal
- 5. – 9. 10. Brno, Czech Republic, MSV
- 6. – 7. 10. Krakow, Poland, Kompozyt-Expo
- 13. – 15. 10. Sosnowiec, Poland, ExpoWELDING
- 14. – 15. 10. Krakow, Poland, Maintenance
- 14. – 17. 10. Milan, Italy, Bi-Mu
- 27. – 30. 10. Hannover, Germany, EuroBLECH

NOVEMBER

POST-FAIR ISSUE AFTER THE MSV BRNO TRIBOLOGY AND TRIBOTECHNOLOGY

- reports, press-service, news from the MSV Brno
- power supply and energetic engineering
- welding, foundry industry, powder metallurgy
- mining industry, metallurgy
- modern – alternative energetic technologies (biogas, biomass, solar, wind, water technologies)
- automotive industry – electrotechnics, electronics, e-mobility
- labour protection – fire-fighting equipment, maintenance of production areas, heating of production halls (ecology)

Exhibitions

- 10. – 12. 11. Stuttgart, Germany, Vision
- 10. – 13. 11. Munich, Germany, Electronica
- 11. – 13. 11. Petersburg, Russia, Svarka/Welding

DECEMBER

AUTOMATION AND ROBOTIZATION

- new trends in robotization, sale and servis for automatic and robot systems
- banks and finances, leasing
- setting of PF 2021 from engineering companies
- chemical industry and production
- automotive production – production of automotive engines and components
- industrial ecology
- innovations – unconventional technologies
- telecommunication technology

Exhibitions

- 1. – 3. 12. Düsseldorf, Germany, Valve World Expo

Regular Rubrics

- Machinery and Technologies – Innovations • Automotive Industry • Information Technologies – Automation and Robotization • Machine Tools and Forming Machines • Industrial Ecology • Logistics • Alternative Drives and Sources of Energy • Tribology and Tribotechnology • Fairs and Exhibitions • Banks and Finances • Manager's Forum • At Round Table • Theme • Monitors • Virtual Reality • World Economies • Exchange • Technical News • Science • Research, Grants, University Projects • Applied Research • Strojárstvo (Engineering) Extra – Enclosure of Scientific and Professional Articles
